Homework 2

Data science for high shcool students, Summer 2018

12 July, 2018

1. R Markdown example

Create an R Markdown file for the code in HW1 Problem 3. The aim of this excercise to create a simple one page report which has a few lines of text about AQI values in zipcode 20871 (or another of of your choice), a table showing the AQI values by date and a plot (same as in HW1 Problem 3).

   1. Set the 'echo=F' in the R section so that code is not displayed in the rendered pdf.

2. Problem 2 [coming soon...]
